Cumulative Index, Volumes 1-7

HOW TO USE THIS INDEX

This is a cumulative index to Environmental Review, Volumes 1 through 7 (1976-1983). The first list, "Articles by Author," and the second list, "Book Reviews and Review Articles by Reviewer," are numbered consecutively with a key number. The third list, "Books Reviewed by Author," the fourth list, "Articles and Books Reviewed by Title," and the fifth list, "Subjects," refer by entry to the key numbers in the first and second lists.

Volumes and Numbers:

The first six issues of Environmental Review were numbered consecutively, 1 through 6. Later it was decided to consider these the first two volumes of ER. Since the printed copies do not bear a volume number, they are listed in this index with the volume numbers in parentheses: (Vol. 1), No. 1, No. 2, No. 3; (Vol. 2), No. 4, No. 5, No. 6, Volumes 3 and 4 consist of three numbers each. Volumes 5 and 6 consist of two numbers each. Volume 7 consists of four numbers.
